

User Stories and Acceptance Criterias

All User Storeis and Acceptance Criterias are also on the JIRA board

User Stories

The User Stories have been prioritized and ordered. They also have MoSCoW tags.

[CRUD]

1. As a User, I want to be able to access the websites main page, so to add to my anime watch list (*Must-have*)
2. As User, I want to be able to view all the anime on my watch list, so that I can see my next show to watch! (*Must-have*)
3. As a User, I want to be able to update my anime list with different star ratings, so that I can review it after having watched it (*Must-have*)
4. As a User, If I change my mind about an anime or hear a negative review, I want to be able to delete anime series from my watch list, so that it's no longer present (*Must-have*)

(The above are all part of the MVP)

[Additional Features]

5. As a User, I want to be able to view the most popular anime at the moment, so that I can consider them to be added to my list (*Should-Have*)
6. As a User, I want to be able to add what current episode I am on, so that I can see how far I am in the anime! (*Should-Have*)
7. As a User, I want to be able to share my anime list with a ss button that takes a snapshot of my custom anime list, so that I can share it with my friends (*Could-Have*)
8. As a User, I want to be able to create an account so that I login have my own AnimeWatchList profile with my list (*Wont-Have*)
9. As a User, I want to be able to leave detail reviews and share my thoughts on a show in a forum on AnimeWatchList, so that I can be part of a new community (*Wont-Have*)

Acceptance Criteria

1. Given when the user opens up the website, When I press the create button either in the hero section or the nav bar, Then it takes me to the Create section so begin creating my custom anime list.
2. Given when the user is on the website, When they either scroll down or navigate to the Create section via the button, Then they are able to view all of their current animes.
3. Given the user is on the create section, When they have inputted their anime to watch, Then they are able to input a rating with that show.
4. Given the user is on the create section, When they desire to no longer watch a specific show, And press the delete button, Then it is removed from their custom anime list.
5. Given the user is on the website and unsure what to watch, When the user presses the Anime List button on the nav bar or scrolls down, Then they are presented with the most popular and trending animes for inspiration
6. Given the user is on their custom list, When they have watched another episode of their favourite anime, Then they are able to edit the list to update their current episode.
7. Given the user is satisfied with their custom anime watch list and wants to share it with their friends, When they press the snapshot button, Then a custom designed picture is shown with their list for them to forward
8. Given the user is on the website home page, When the user wants to create a profile, And press the create account button, Then they be presented with their own account for a more personalised experience.
9. Given the user is on the home page, When they press on the Community button, Then they will be able to leave detailed reviews about an anime and discuss with other members of the AWL community in a amazing forum
